What’s been happening

• **Still in progress:** Work continues on getting things working on the U Drupal platform and getting the bios system ready.

• **Web upgrade form** was sent to all web point people—entries have been coming in. Will use this to create high level schedule to share, hopefully in August.
Timing expectations

• The AHC’s transition to Drupal will start in fall 2014 and go through the end of 2015 (exact times TBD).

• Not all sites are going at once. There will be different start and end dates for each web property. Many won’t begin until sometime in 2015.

• We’re using the web upgrade form responses to help figure this out.
