To continue using Box Sync, AHC devices should be compliant with these AHC-IS recommended operating systems before October 24, 2017:

- Windows 10 64bit
- Mac OS 10.13
- iOS 11

For assistance in upgrading your AHC-IS supported device, please call 1-HELP to schedule an appointment with a desktop technician.

The WiFi network “UofM Secure” will be retired at the end of December 2017. eduroam is now the preferred secure WiFi network for University of Minnesota students, faculty, and staff. Please change your default or preferred University WiFi network to eduroam. To connect, choose
“eduroam” from your WiFi settings or network preferences and log in using your full University email address and password. eduroam is fast, secure, and available at all University of Minnesota campuses and partner institutions around the world. Learn more at z.umn.edu/eduroam.

**Expanded Application Development Services**

The Application Development group has been expanding its services to include assistance integrating, accessing, and analyzing data from the many disparate sources that colleges and programs within the Academic Health Center utilize on a daily basis.

- The School of Public Health formed a Data Committee to wrangle data from various sources that have been collected and used for day-to-day processing over the last 15+ years. We have been working on inventorying and analyzing the data, defining and gaining consensus on definitions for key metrics, and developing dashboards that answer both operational and strategic questions.

- After several months of preparation involving inventorying and analyzing data sources used by the Medical School and developing a robust request and data governance framework, the Medical Education Outcomes Center had its limited-release launch on September 5. The goal of the center is to connect medical education to health outcomes and workforce needs. The center will ultimately serve administrators, faculty, and researchers by delivering data sets, data experts, and innovative data analysis.

**Welcome Back, Students!**

Fall Semester classes began on Tuesday, September 5. During this exciting (and hectic) time, telephone queues for Help Desk services across the University may be increased. We are committed to providing the best service possible and we appreciate your patience!
