What we’ll cover today

- What’s been done
- What’s going on
- What’s ahead
- Let’s celebrate!
Town Hall follow-up

• We’ll send the recording and slides

• Next AHC Web Town Hall:
  October 20, 2016
  – Moving to once a semester “state of the web” update, with more focused worksessions (eg calendar), open labs for 1:1 help, consultations, etc.

• AHC Web Events:
  http://hub.ahc.umn.edu/communications/web/about/attend-event
In 2+ years we’ve transformed 165 UMContent and other web properties (formerly 275) to 74 Drupal sites serving more than 100+ AHC units, and the audiences they serve.
But while it’s time to celebrate this milestone, there is no rest for the web!
We are out of UMContent but still transitioning web properties to Drupal
Projects underway for rest of 2016

• Finish transition to Drupal:
  – Non UMContent properties including Pantheon sites to U Drupal platform
  – Health Sciences + AHC Resource Hub sites: Big, focused effort

• Wrapping up current efforts; projects to improve performance, support, training, add features and functionality
Closer to a new web model...
provide clarity // improve quality
// build a strong foundation
// move to a model of continuous improvement

WEB COMMUNITY
MANAGE SITES
Our web presence is used and the work to support it is valued.

We continuously improve the web for our AUDIENCES.

People know the answers and take care of their websites.

YES, I FOUND WHAT I NEEDED!
A guiding principle: People know how to get things done
How to get…

• **Tips and how-to:** [AHC Resource Hub](https://uhc.umn.edu) and [AHC Drupal Training](https://drupal.umn.edu)

• **Help:** [ahcweb@umn.edu](mailto:ahcweb@umn.edu) and web building open labs (2x month)

• **Wish list ideas:** [Feature/functionality form](https://uhc.umn.edu/wishlist)

• **Advice / discussion:** [Schedule a consultation](https://uhc.umn.edu/advice)

• **Training:** Monthly in-person for Drupal (looking at moving online), new bios approach being worked on
z.umn.edu/ahcweb
What’s ahead: Living in the new web model
Starting in 2017...

- Roll out regular check-ins
- Special projects (improvement, new efforts, etc.)
- Clear ways to request things and know what to expect
- Getting earlier sites that launched updated to the most current settings
- Continue to evolve and improve tools and support: Theme, bios, training, etc.
