VPN– Mac for AHC Machines

When working off campus on your AHC Mac device. You can access your departmental/shared files by connecting to the VPN.

Connecting to the VPN

You will use Cisco AnyConnect to use the VPN network

1. Go up to the spotlight of your desktop and type “Any Connect” and select
   “Cisco AnyConnect Secure Mobility Client”

2. The AnyConnect box should appear and list three options: Split Tunnel, Full Tunnel, and Departmental Pools. If nothing appears, type the following; “tc-vpn-1.umn.edu” (minus the quotes)

3. Connect to Departmental Pools
   You will see a drop down menu, select AnyConnect-AHC01.
   Type in your x500/internet id/my u/username and password

4. Select “OK”, you are now connected to the University of Minnesota VPN
   Note- Deparmental pools will restrict access to the internet and all other programs by design.
   If you wish to have access to the internet while accessing files; please connecting using Spilt Tunnel.

5. Connect to your departmental files as you do on campus.
